FIRE & SAFETY

ABOUT **IDEA**

IDEA Fire Safety Division is the leading turnkey Fire Safety Solutions provider to a vast clientele across Pakistan.

With the aim to provide comprehensive fire protection to all market segments of Pakistan, IDEA has been leading the way by implementing innovative solutions for complex projects with diversified hazards, and has been furnishing state-of-the-art products & services to all prestigious customers by virtue of its agility and strong support of global principals. Being a member of NFPA (National Fire Protection Association – USA), IDEA's professional team possesses in-depth knowledge of authentic international fire safety codes and standards including NFPA, BSI, BCP, ANSI, Euronorm and ATEX etc, and offers in-house consultancy & designing facility to devise solutions as per specific hazard containment demand for projects of any magnitude.

We are pleased to offer professional Fire Protection Consultancy Services and Trainings in accordance with the international standards, as required. This is further complemented by availability of a wide range of 3rd party certified Fire Protection products through our reliable and renowned principles. At IDEA Fire Safety Division, we devise fire & safety solutions in conformance with the international standards that are tailored to best suit your budgets and compliance criteria. You can count on IDEA to professionally design, supply, install, commission and maintain Fire Protection & Safety systems of any magnitude or complexity for your workplace, household or any vulnerable occupancy.
